

Board of Park Commissioners Approval Form

Ivan Lebamoff Reservoir Park Pond Fountain Replacement

Project Approval Request

Scope of Work:

This project is the replacement of the two fountains that are located in the Ivan Lebamoff Reservoir Park Pond. The existing fountains are outdated and need major repair. Therefore, it is in the park's best interest to replace them with new ones. Included with the replacement are two 5-horsepower 230-volt single-phase pumps, two premium double arch nozzles, as well as a total of 24 color-changing lights. This will also include the installation, removal, and storage over the winter months.

Aquatic Management was the only bidder for this project. Aquatic Management takes care of removals, installations, repairs as well as storage of the Parks Department fountains.

Board Approval:

At this time, I would like to request approval for a contract with Aquatic Management at a total cost of \$40,320.00, with the funding to come out of the Ivan Lebamoff Reservoir Park trust.

The Fort Wayne Parks and Recreation and the Board of Park Commissioners, met to host their regularly scheduled monthly Board meeting on **August 10, 2023**, to approve the above-referenced project and contract, in the amount of **\$40,320.00**

We, the Board of Park Commissioners, on the date stated, do ATTEST, sign the above-referenced and attached documents, and approve as presented.

Justin Shurley, President

Cory Miller, Vice-President

Richard Briley, Commissioner

Jenna Jauch, Commissioner

Steve McDaniel, Director/Board Secretary
