Memo

Fort Wayne Parks and Recreation has chosen to utilize Sourcewell for the cooperative purchase of synthetic turf playground safety surfacing at Boone Park. This program has been utilized to purchase similar safety surfacing on a previous project at Kreager Park.

Information Regarding Sourcewell Cooperative Purchasing

Cooperative purchasing provides ready-to-use, competitively solicited contracts. Procurement is conducted by or on behalf of, one or more Public Procurement Units as defined by the American Bar Association Model Procurement Code for State and Local Governments. Sourcewell's analysts streamline the procurement process by developing RFPs and IFBs for national, competitive solicitations that meet or exceed local requirements. Sourcewell's process is continually refined to best meet the needs of participating agencies and offers exceptional products from nationally acclaimed suppliers.

Sourcewell was created by state law as a service cooperative to provide programs and services to education and government. Sourcewell was established with the statutory purpose of assisting public agencies in meeting specific needs that are more efficiently delivered cooperatively than by an entity individually.

As a service cooperative, Sourcewell is a local government unit, public corporation, and public agency pursuant to the Minnesota Constitution and enabling law Minn. Stat. § 123A.21. All Sourcewell employees are government employees. Sourcewell is governed by an eight-member board made up of local elected officials including county commissioners, city council members, mayors, and school board members.

Sourcewell is authorized to establish competitively awarded cooperative purchasing contracts on behalf of itself and its participating agencies. Sourcewell follows the competitive contracting law process to solicit, evaluate, and award cooperative purchasing contracts for goods and services. Sourcewell cooperative purchasing contracts are made available through the joint exercise of powers law Minn. Stat. § 471.59 to participating agencies.

Sourcewell clients can utilize cooperative purchasing contracts through similar joint powers, intergovernmental cooperation, or cooperative purchasing laws in their respective jurisdictions. Participating agencies include all eligible government and education agencies.
