Always Moving!

Throughout history, we have used chalk to communicate with one another: to teach and learn, to draw and color, to build and plan, and to change those plans when necessary. We have placed our regular programs on hold for the summer, but found inspired ways to keep them alive through engaging installations. This summer, Riverfront Fort Wayne offers you the opportunity to teach, learn, draw, color, plan and build with chalk as your medium and Promenade Park as your canvas. Each day starting June 15th, lasting through the summer (except holidays), we will have new opportunities for you to engage with your neighbors—following social distancing guidelines—from 2pm-8pm. We also have weekly themes coordinating our activities. Come find us in the blue Riverfront tent for instructions and supplies, and get ready to CHALK IT UP! (Chalk It Up is a temporary replacement for regular Riverfront programming.)

Sundays
Sundays are all about wellness. Move, jump, spin, and play.

Mondays
Each Monday, we explore literature—physically. Use the park to write your memoirs, craft a story, or walk through a new book.

Tuesdays
Do you think you can’t play games six feet apart? Think again. We’ll be giving you new ways to game your way through the park each Tuesday.

Wednesdays
If you like to ask hard questions and try your hand at giving the answers, come to the park on Wednesdays where we will be engaging in The Great Conversation.

Thursdays
Thursdays will keep you dancing through life: follow step charts, learn to read music, join a dance off, or more.

Fridays
Learn to see Promenade Park through a new lens: science. We’ll teach you about the biology, physics, astronomy, engineering, mathematics, and technology of Promenade Park every Friday.

Saturdays
Every Saturday, artists of all ages and abilities are invited to turn chalk into art—together.

Emily Simpson: Fossil Vitra
August-September
Public Reception: August 9, 1:00-3:00 p.m.
In the last 20 years, Emily Simpson began her work as a glass artist making jewelry and has since explored techniques with a larger kiln. Most of her work is now kiln formed and includes various techniques of adhering dried plant specimens and softening glass edges to produce functional art pieces. The exhibit of Botanicals in Glass was first dubbed “Fossil Vitra” by Paul Tarlow of Helios Glass Studio in Austin, TX. Having been a plant enthusiast all her life, Emily says this way of making glass art is her favorite and is also a great way to exercise her green thumb! Emily’s next adventure in glass will be deep “bas relief” dry plaster casting. She will also be conducting classes in kiln forming at the new home studio she shares with fellow artist and husband Greg Duncan in Fort Wayne. By sharing her work, Emily hopes to inspire people to look more closely at the world around them as a reminder of the beauty found there.

Acrylic Pour

The defining characteristic of the technique of pouring acrylics is that you don’t apply the paint with a brush or palette knife but rather use gravity to move the paint across a canvas. The results are unlike anything you can get with a brush: fluid flows of paint without any brush marks or texture. Choose your technique – dirty cup, swipe or strainer – and learn to create amazing and beautiful works of art. Instructors are provided by Build Guild. Registration deadlines: June 29 and July 27. Beginning Pottery

Pottery is one of the most ancient arts still popular today. Excavations in the Near East have revealed that primitive fired-clay vessels were made there more than 8,000 years ago. You will learn both hand building and wheel throwing techniques, how to prepare clay, select a design, and various glazing techniques. Every student will create six unique pieces to take home (a cylinder, vase and bowl by wheel and a coiled creamer, slabbed box and your own creation by hand). A supply list will be provided with your receipt or you may view it on-line at www.fortwayneparks.org. All pieces will be fired at the Community Center and may be picked up one week after the last class. Each class session includes time for set-up and clean-up and may extend to an extra session depending on the condition of the pottery as it is dried and fired. Ages 13+. Instructor Brandon Furniss has been working with clay for 25 years and teaching in the area for 9 years. Registration deadline: June 29. Min. 5. Max. 6.
