PARK SYSTEM COMPREHENSIVE PLAN

"I LOVE MY PARKS FOR PROVIDING A SAFE AND BEAUTIFUL SPACE TO GO WALK AND QUIET MY MIND, WALK WITH MY DOG AND ENJOY BEING OUTDOORS."

PLAN AT A GLANCE

Five principles – equity, access, quality, community, and environment – serve as the backbone of this plan. To ensure the legacy of Fort Wayne's parks continues for generations to come, an action plan has been developed for strategic direction to implement these five principles (See Chapter 9, Implementation). They guide recommendations to ensure that the system promotes quality of life for all, enhances community connections, maximizes mental and physical health benefits, and protects the natural environment.

EQUITY
embraces diversity

ACCESS
welcoming and connected

QUALITY
thriving and well-maintained

COMMUNITY
elevates community connections

ENVIRONMENT
healthy and sustainable

"MAKE SURE THAT QUALITY FACILITIES AND NATURAL AREAS ARE AVAILABLE THROUGHOUT THE CITY - ESPECIALLY IN LOWER INCOME AREAS."

"THERE SHOULD BE A CONCERTED EFFORT BETWEEN PARKS SYSTEM AND TRAIL SYSTEM TO MAKE IT POSSIBLE TO SAFELY GET TO ALL PARKS BY BIKE ROUTES"
