

History of the SCFVA

School Children’s Flower and Vegetable Association
Fort Wayne, Indiana

In the early 1920’s, Fort Wayne Park Superintendent Adolf Jaenicke began organizing a program with the Fort Wayne Chamber of Commerce that would provide school children with potted plants. According to minutes from October 5, 1923, Board of Park Commissioners instructed Mr. Jaenicke that “plants be propagated in our greenhouse and later be distributed among school children throughout the city”. The first distribution of plants took place in 1927, and the plant display by participating students was held at the courthouse. In 1928 flower seeds and in 1929 vegetable seeds were made available for purchase to be grown and included in the display. Mrs. John Memmewisch served as the first president of what eventually came to be known as the School Children’s Flower and Vegetable Association. Under her leadership the constitution was written to include all children in public and parochial schools.

After the first display of plants at the courthouse, the location was moved to Central High School where it was held until 1954. Because the number of entries grew considerably, the venue moved to the Memorial Coliseum. This change brought complication to the show as each school wanted their own exhibit. In 1958 the association was disbanded with the “sincere hope that a new organization might be formed that would sponsor the continuation of the program”.

The Park Board maintained the program through 1961 when a reorganized SCFVA was formed. A new constitution was adopted, elections were held, and a new era of the plant show had begun! Through volunteer efforts, plants and seeds are distributed to elementary school children in the spring and in the fall each school has their own plant show. All blue-ribbon winners from each school are eligible to participate in a City-Wide Blue-Ribbon Recognition Day Show. Over the years, this Blue-Ribbon show has been held at Franke Park, Blackhawk Middle School and its current location at McMillen Community Center.

More than 60 schools, including homeschool groups, participate in the SCFVA program. The Fort Wayne Parks and Recreation Department grows and distributes more than 17,000 potted plants each spring and many packets of flower, vegetable and herb seeds are sown by participating children.

According to the SCFVA by-laws, the purpose of the association is to “further education in the Nature Study Theory, growing flowers, plants and vegetables, molding characteristics of worth in making citizens of the future.” We hope to continue working to improve the interest in nature that is inherent in children.”

Chairperson's Flower, Plant and Vegetable Show Checklist

Before School Begins

- Doublecheck your school show date with your school principal and/or PTA president. Contact the SCFVA president, flower show chairperson or the park board advisor if you have questions.
- Put a notice about the school flower show in the school registration packets for students in grades 1 – 5.

A Week Before Your School Show

- Arrange with your principal the location of tables for displaying entries well in advance.
- Call judges before the show to confirm show date, time and location in the building.
- Count your ribbons to make sure you have enough. If the Statistics Form was used the previous year it is a good source for this information.
- Hang posters to announce show.
- Plan on having helpers. You could have many entries the morning of your school show. To make it easier on yourself, parents, and students you may want to allow students to bring in entries after school the day before your show.
- A few days before the show, announce the show and send home Page 7 (Entry Forms)
- Make the show fun! Have a category for the "goofiest" vegetable or the "smallest" plant.

Get everyone involved! Even if they did not grow seeds or their plant died, let students and teachers bring in a favorite plant. All these categories can get Green Thumb ribbons or special prizes.

Day Before the Show

- Leave copies of the information page and entry forms in the school office.
- Have a designated space for each possible category on the tables. Label the categories. Separate the potted plants by 1st, 2nd, 3rd and 4th year or more. Within each year, separate into groups of like plants.
- Have extra containers like paper plates, cups, or tin cans in case a student needs help in displaying his/her entry. A container like a milk jug from home for watering may be helpful. Other needed supplies include a fabric tape measure to measure size categories, scissors or pruners for trimming entries, stapler and tape for securing entry forms.

Day of the Show

- Have copies for the Entry Form ready for students to complete. Try to be aware of all entries coming into the show. It is the responsibility of the chairperson and helpers to make sure entries are correct. If a child has incorrectly entered a category,

advise about how to enter correctly. Be sure that each entry is properly tagged and the child's name is concealed before the judges arrive. Entry categories are listed on page 7 of this handbook.

- A student may have only one entry in each category. However, a student may enter as many categories as desired.
- Only students in grades 1 – 5 are eligible to be judged by SCFVA judges and are qualified to take their entries to the City-Wide Blue Ribbon Show.
- Have copies of the Judging Comment Sheets (page 15 of Handbook) available for judges.
- Make sure every Blue Ribbon winner receives a copy of the Congratulations form (page 11 of Handbook).
- Please fill out the Statistics Form (pages 13-14 of the Handbook). This will be very helpful when ordering ribbons for the next year.
- Each school will receive a plant designated as a "Principal Plant" so that he/she can participate in the show.
- Congratulate yourself, your helpers, the students for helping with a program that brings together school staff, parents and children in the common goal of growing something special!

Important Dates for 2022:

Mid-January

Distribute Page 3 (It's Time to Order Seeds and Shirts!) to students in grades K – 4. Seed sales are not restricted to children. Encourage staff, family and friends to buy seeds.

Monday February 7

Order deadline for seeds, T-shirts, pencils and ribbons. Send ONE check made out to SCFVA with Page 4 (Current year Order Form) completed to Lynda Heavrin at the address on the bottom of page. Keep a copy for your records. BE SURE to include the requested show date, as it is on a first-come, first-serve basis. Your school show must be completed prior to the Blue Ribbon Show.

Monday April 4

Seed, ribbon, T-shirt and pencil pickup at the Lawton Park Maintenance Office, 1900 N. Clinton. Orders will be available beginning this day and will be held until plants are delivered. The office is open M – F 7:30 a.m. - 3 p.m. and after hours by appointment.

April 25-29

Plants delivered to schools (refer to schedule in handbook). Distribute Pages 5 & 6, the seeds, plants and any T-shirts ordered to students. It might be helpful to collect bread bags to use them to hold plants being sent home. Paper lunch sacks work well too.

Wednesday August 3

School Chairperson's Clinic at the Botanical Conservatory. See the current year's plant material and discuss how to create a fun show. Learn about judging criteria.

Late August/Early September

School Plant Show time! Remind students of your school's upcoming show. Send page 7, front and back, home with students in grades 1 – 5. It has detailed information about the school show, including entry forms. Copy page 9 for more entry forms available the day of show.

Friday September 9, 5 p.m. – 7 p.m.

Ribbon Show Registration: McMillen Community Center, 3901 Abbott Street. Volunteers needed.

Saturday, September 10: 8:30 a.m. – 11 a.m.

Blue Ribbon Show Registration: 12:30 p.m. – 2:30 p.m.
Blue Show Judging. Volunteers needed to help judges.

FUTURE DATES:

Wednesday, January 18

Chairperson Meeting, Botanical Conservatory. Pick up 2023 handbook.

It's Time to Order Seeds and Shirts!

Dear students and parents,

Now is the time to order your seeds for spring! Below is a list of seed varieties available from the School Children's Flower and Vegetable Association. The seeds will be distributed in April 2022. As you choose your seeds, think of what you would like to return to your school's SCFVA show early in the next school year. A description of each variety is included. Please indicate on this order form the seeds and t-shirts you want to order. Your family and friends are also able to order seeds from us. Return this order form and payment to your teacher by _____

SEEDS			QTY	
VEGETABLES	Beet - Detroit Dark Red - medium size, rounded and deep red	Beet		Total Seed Cost:
	Carrot - Nantes - up to 8 inches long and 1.5 " wide with orange-red color	Carrot

Helpful Growing Tips from the SCFVA

Read the tag in your plant to see what kind of Conditions plant prefers. Most plants do best if you repot them when they outgrow their current container. Replant into a pot no more than two inches larger than current pot. If it is too large, the plant spends its time growing roots instead of leaves and flowers. Also, be sure the new pot has drainage holes in the bottom. Use potting soil mix, not dirt from your yard. Write your name on tag and keep with your plant.

There are great websites and books on gardening and houseplants in the library. They will help you have the most fun with learning to grow plants!

Be sure to bring your plant back to the school plant show in the fall. It will take place on:

History of the School Children's Flower and Vegetable Association

In the early 1920's, Park Superintendent, Adolf Jaenicke, organized a program with the Fort Wayne Chamber of Commerce which would provide school children with potted plants. On Oct.5, 1923 the Board of Park Commissioners instructed Mr. Jaenicke that "plants be propagated in our greenhouse and later be distributed among school children throughout the city".

Mrs. John Memmewisch was the first president until 1929. During her tenure, the constitution was written specifying participation by public and parochial schools. Flower seeds were added in 1928 and vegetable seeds in 1929.

The Park Board maintained the program through 1961 when a new organization was formed. Plants and seeds were to be distributed to the children in the spring and in the fall each school was to have a flower show. All "Blue Ribbon Winners" were to be eligible to participate in a City-Wide Blue Ribbon Recognition Day Show.

More than 60 schools participate in the SCFVA program. Each year 4,000 packets of seeds are sown by participating children and the Fort Wayne Parks Department grows and distributes more than 19,000 potted plants.

According to the by-laws, the purpose of the Association is to "further education in the Nature Study Theory, growing flowers, plants and vegetables, molding characteristics of worth in making citizens of the future." We hope to continue working to improve the interest in nature that is inherent in children!

Below are all possible categories. You may enter as many categories as you want, but you can enter each category only once. A description of how entries are judged is listed on the back of this form. Two entry forms are below. If you need more, please photocopy them or ask your show chairperson for more.

POTTED PLANT CATEGORIES

SEED CATEGORIES

VEGETABLES

- Beet for appearance 1 per display
- Beets for appearance 3 per display
- Beet for size 1 per display
- Carrot for appearance 1 per display
- Carrots for appearance 3 per display
- Carrot, longest 1 per display
- Corn for appearance 1 per display
- Corn for appearance 3 per display
- Corn, longest 1 per display
- Gourd, single 1 per display
- Gourd, 3 alike 3 per display
- Gourds, 3 different 3 per display
- Pumpkin for appearance 1 per display
- Pumpkin for size 1 per display
- Sunflower, appearance 1 per display
- Sunflower, for size 1 per display
- Mixed Collection of Vegetables 5 or more vegetables from AT LEAST 2 categories

CUT FLOWERS

- Cleome, single 1 per display
- Cleome, any 3 3 per display
- Marigold, Single 1 per display
- Marigold, any 3 3 per display
- Teddy Bear Sunflower 1 cut stem with one or multiple blooms
- Zinnia, single 1 per display
- Zinnia, 3 alike 3 per display
- Zinnia, 3 different 3 per display
- Mixed Bouquet of Flowers 5 or more flowers from AT LEAST 2 categories

HERBS

- Basil 1 stem cut, in water
- Basil 1 potted container
- Parsley 1 stem cut, in water
- Parsley 1 potted container

1st year Potted Plants (Sent home in April 2022)

Umbrella Plant, Asparagus Fern, Purple Plectranthus, Moses-in-the-Cradle, Strawberry Begonia, Spider Plant, Begonia 'Ambassador Pink', Coleus 'Wizard Coral Sunrise', Geranium 'Maverick White'

2nd Year Potted Plants (Sent home in April 2021)

Umbrella Plant, Asparagus Fern, Jacobinia, Strawberry Begonia, Spider Plant, Begonia 'Nightlife Rose', Coleus 'Wizard Sunset', Geranium 'Pinto Salmon Splash'

3rd Year Potted Plants (Sent home in April 2020)

Umbrella Plant, Asparagus Fern, Jacobinia, Strawberry Begonia, Spider Plant, Begonia 'Sprint Orange', Coleus 'Super Rainbow Multicolor', Geranium 'Pinto Lavender Rose'

4th + Year Plants - Any SCFVA Plants sent home in 2019 or earlier. A plant is never too old to enter!

My Favorite Plant - Any plant grown throughout the summer.

How Ribbons are Awarded

1. A blue ribbon (1st place) is awarded in every category in which there is an entry.
2. Only one blue ribbon can be awarded in each category. However, multiple red (2nd), yellow (3rd), and orange (4th) place ribbons can be awarded. All entries receive ribbons.
3. The plant tags that came with the plant are not necessary for entering a plant and a missing tag does not disqualify the plant from receiving a ribbon. The tags are only used for judging if there are two completely equal plants in competition for 1st place.
4. Only the entries are judged, not the containers, for all the categories.

Frequently Asked Questions

Q. May I enter a plant that I received in another year or from another Fort Wayne School?

A. Yes, it does not matter and you may enter it in the school you are attending now.

Q. What if my plant died or did not do well?

A. Even if you did not get the results you wished for your plant bring it anyway. You might even get a blue ribbon if yours is the only entry in that category. If your plant died but you have another plant you cared for through the summer bring that plant to your school's show and enter it in the "My Favorite Plant" category.

Q. How many categories may I enter?

A. You may bring back all your plants that you have received from the SCFVA program no matter how old the plant since there is a 4th+ Year category. You may also enter any or all the seed categories depending on what you grow.

How SCFVA Entries are Judged

Vegetables

All vegetables entered for appearance should be clean and free of blemishes.

Tops of carrots and beets should be cut back to 1".

Corn husks of corn should be pulled back and tied.

Entries for size are judged only for size.

Giant sunflower seeds are judged in the vegetable category for maturity, symmetry and the overall pattern. The yellow florets in the center of the flower head should be removed so seeds can be judged.

When entering in the "3 Alike" category the vegetables should be similar in size and color.

Flowers

Cut flowers should be blemish-free and are judged for freshness, richness of color, symmetry and health of the foliage.

When entering in the "3 Alike" category the flowers should be similar in size and color.

Herbs

Cut and potted herbs should be blemish-free and are judged for freshness and color.

Potted Plants

All plants should be properly groomed with discolored leaves and flowers removed.

The blooming plants, Jacobinia, Begonia and Geraniums, are judged first for health of the plant and overall balance of growth and second for the flowers.

Foliage plants, Asparagus Fern, Spider Plant, Umbrella Plant, Strawberry Begonia, and Coleus are judged for well-developed and abundant foliage.

The Coleus flowers and Spider Plant and Strawberry Begonia "babies" may be left on the plant.

You are a 2022 SCFVA Blue Ribbon Winner!

Congratulations (student's name): _____

Your entry (plant, flower, vegetable, herb): _____ received a Blue Ribbon
at the _____ plant show!

(name of school)

You are invited to bring your entry to the City-Wide Blue Ribbon Show
Held on Saturday, September 10, 2022.
Please bring this sheet with your entry.

City-Wide Blue Ribbon Show
McMillen Community Center
3901 Abbott Street

Registration

Friday, September 9, 2022..... 5 p.m. – 7 p.m.

Saturday, September 10, 2022..... 8:30 a.m. – 11 a.m.

NOTE: It is OK to use a new/fresh cut flower or vegetable as long as it is entered in the same category that won in your school show. Potted plants must be the same plant that won at your school show.

Schedule for Saturday, September 10

- 8:30 a.m. – 11 a.m. Registration of entries
- 12:30 p.m. – 2 p.m. Judging (closed to the public)
- 2:30 p.m. Show open to the public. Please do not pick up your plants immediately at this time so that people can enjoy looking at all the entries.
- 2:45 p.m. Merit Awards presented. Door Prizes announced. Pick up door prizes promptly.

At registration, each student will receive a small prize and a chance for a door prize.
Several door prizes will be awarded after Merit Awards are presented. The stubs from the entry tags are used for the door prize drawings. You are automatically entered with each plant entry you submit.
YOU MUST BE PRESENT TO WIN DOOR PRIZES.

SCFVA T-shirts will be available during the registration on Friday and Saturday.
We hope you will be proud to wear these shirts as a sign of your Green Thumbs!

If you have questions about the Blue Ribbon Show, please contact Fort Wayne Park's SCFVA representative, Lynda Heavrin, at 260-427-6424 or lynda.heavrin@cityoffortwayne.org during office hours, Monday-Friday 8 a.m. – 3 p.m.

Helpful Hints from the Judges

Plants and Potted Herbs

- Remove dead and damaged leaves and flowers.
- Overwatering a plant will cause the roots to rot. Usually plants like to dry out a bit before watering. Pots without holes can cause roots to rot because the water will not drain.
- Sometimes pale leaves are from lack of enough light or fertilizer. Try giving your plant more light or have an adult help you with giving the plant some mild liquid fertilizer.
- This pot may be too small. When you see the roots start to come out of the bottom of the pot, that is when it is time to transplant to a larger pot.
- This pot may be too large for your plant. Transplant to a smaller pot and give the roots a chance to fill the pot before transplanting again.
- To make a more rounded plant, pinch the growing tips throughout the summer. You may need to turn the plant occasionally to give light to all sides of the plant.
- Good job growing your plant this year! Keep it inside during the winter, give it lots of light, and water it about every two weeks. Be sure to enter your plant next year.

Cut Vegetables, Herbs and Flowers

We look for the freshest, cleanest cut products as possible with the least amount of blemishes

- This is a beautiful Vegetable/Flower/Herb
It is ___Very Fresh ___Very Clean
It has ___Good Color ___No Blemishes ___Uniform Size

Vegetables have the most requirements for judging.

- The florets in the center of the giant sunflower must be removed so we can see the seeds.
- The husks on the ornamental corn should be tied back.
- The leafy tops of beets and carrots should be cut off to 1"
